

APPENDIX C. HOSPITAL SELECTION GUIDE

- a) Field paramedics and Dispatch shall NOT divert patients from an appropriately selected hospital without the approval of Medical Direction; patients with an altered level of consciousness shall not be taken to a hospital with a non-functioning CT Scanner.
- b) "Trauma Alert" (Priority 1 or 2) Adult patients are transported to the nearest Level 1 Hospital (SAMMC, UH); Pediatric "Trauma Alert" patients may ONLY be taken to University Hospital. "Trauma Alert" burn patients - All Adult Burn Trauma Alert (R-8) patients are transported to SAMMC, all Pediatric Burn Trauma Alert (R-7) patients are transported to University Hospital. Transports are done as rapidly as safely possible.
- c) Sexual assault patients 18 years or older who are assessed as Priority 2 or 3 patients (Non Trauma Alert) shall be transported to Methodist Specialty and Transplant Hospital; patients age 17 and under shall be transported to Children's Hospital of San Antonio.
- d) Free standing Emergency Centers (FEC's) accept Priority 3 patients. See STRAC FEC Typing Matrix for further guidance.
- e) Heart Alert: PCI - Percutaneous Coronary Intervention certified facility.
- f) Stroke Alert: Comprehensive - Comprehensive Stroke Center certified facility; Primary - Primary Stroke Center certified facility; or Acute Stroke Ready Center.
- g) Post ROSC Hypothermia: hospitals have capability to provide post-arrest targeted temperature management (hypothermia) therapies and provide critical care support for post cardiac arrest patients.

For other categories of care use the following grid:

Version: October, 2018

Trauma Center Designation		Adult (Age 18 and older)			Heart Alert	Post ROSC Hypothermia	Stroke Alert	Obstetrics	Bariatric CT lbs / in	Pediatric (Age 17 and under)
