Neonatal Rules Webinar

- Today is the Level III – Neonatal Intensive Care Unit (NICU) and Level IV – Advanced NICU Rules Webinar.
- Power Point Presentation and Webinar link – will be mailed out to participants, RACs and other stakeholders.
- Questions – will be answered at the end of the presentation.
How do I send questions?

• You may type your questions in the chat box and hit “enter”;
• Or
• You may email your questions to be answered at a later time to:

Hospital Level of Care Designations for Neonatal Care

Elizabeth Stevenson, Manager
Neonatal & Maternal Designation
Department of State Health Services

Debbie Lightfoot, Designation Coordinator
Neonatal & Maternal Designation
Department of State Health Services

June 16 and 20, 2016
Objectives

• Review of Subchapter J Sections that pertain to Level III and Level IV Neonatal Designation.

• Detailed review of Subchapter J Sections §133.185, §133.188 and §133.189.

• Discuss deadlines for designation.

• Answer questions
Texas Administrative Code

TITLE 25  HEALTH SERVICES
PART 1  DEPARTMENT OF STATE HEALTH SERVICES
CHAPTER 133  HOSPITAL LICENSING
SUBCHAPTER J  HOSPITAL LEVEL OF CARE DESIGNATIONS FOR NEONATAL AND MATERNAL CARE

Rules

§133.181  Purpose
§133.182  Definitions
§133.183  General Requirements
§133.184  Designation Process
§133.185  Program Requirements
§133.186  Neonatal Designation Level I
§133.187  Neonatal Designation Level II
§133.188  Neonatal Designation Level III
§133.189  Neonatal Designation Level IV
§133.190  Survey Team
The purpose of this section is to implement Health and Safety Code, Chapter 241, Subchapter H, Hospital Level of Care Designations for Neonatal and Maternal Care, which requires a level of care designation of neonatal services to be eligible to receive reimbursement through the Medicaid program for neonatal services.
The following words and terms, when used in this subchapter, shall have the following meanings, unless the context clearly indicates otherwise.
• (3) CAP--Corrective Action(s) Plan. A plan for the facility developed by the Office of EMS/Trauma Systems Coordination that describes the actions required of the facility to correct identified deficiencies to ensure compliance with the applicable designation requirements.

• (11) Immediate supervision--The supervisor is actually observing the task or activity as it is performed.
• (12) Immediately--Without delay.

• (22) PCR--Perinatal Care Region.

• (24) POC--Plan of Correction. A report submitted to the office by the facility detailing how the facility will correct any deficiencies cited in the survey report or documented in the self-attestation.
• (28) RAC--Regional Advisory Council as described in §157.123 of this title (relating to Regional Emergency Medical Services/Trauma Systems).
• (a) The Office of Emergency Medical Services (EMS)/Trauma Systems Coordination (office) shall recommend to the Executive Commissioner of the Health and Human Services Commission (executive commissioner) the designation of an applicant/healthcare facility as a neonatal facility at the level for each location of a facility, which the office deems appropriate.
• (b) A healthcare facility is defined under this subchapter as a single location where inpatients receive hospital services or each location if there are multiple buildings where inpatients receive hospital services and are covered under a single hospital license.
(c) Each location shall be considered separately for designation and the office will determine the designation level for that location, based on, but not limited to, the location's own resources and level of care capabilities; Perinatal Care Region (PCR) capabilities; compliance with Chapter 133 of this title, concerning Hospital Licensing. A stand-alone children's facility that does not provide obstetrical services is exempt from obstetrical requirements. The final determination of the level of designation may not be the level requested by the facility.
• (e) PCRs.
  • Aligned with the Trauma Service Areas (TSAs) due to established infrastructure to support the functions of the PCRs.
  • Established for regional planning purposes, including emergency and disaster preparedness.
  • Not established for the purpose of restricting patient referral.
(d) Non-refundable application fees for the three year designation period are as follows:

- Level III neonatal facility applicants, the fee is $2,000.00
- Level IV neonatal facility applicants, the fee is $2,500.00
(A) All completed applications, received on or before July 1, 2018, including the application fee, evidence of participation in the PCR, an appropriate attestation if required, survey report, and that meet the requirements of the requested designation level, will be issued a designation for the full three-year term.
• (B) Any facility that has not completed an on-site survey to verify compliance with the requirements for a Level II, III or IV designation at the time of application must provide a self-survey and attestation and will receive a Level I designation. The office, at its sole discretion may recommend a designation for less than the full three-year term. A designation for less than the full three-year term will have a pro-rated application fee consistent with the one, two or three-year term length.
(C) A facility applying for Level I designation requiring an attestation may receive a shorter term designation at the discretion of the office. A designation for less than the full three-year term will have a pro-rated application fee.

(D) The office, at its discretion, may designate a facility for a shorter term designation for any application received prior to September 1, 2018.

(E) An application for a higher or lower level designation may be submitted at any time.
Guiding Principles

• If the rule does not specify the exact requirement (ex. Successful NRP completion), it is up to the facility to define the expectation appropriate for the population served.

• Medical Practice decisions are not regulated by the Department of State Health Services.
• (a) Designated facilities shall have a family centered philosophy. Parents shall have reasonable access to their infants at all times and be encouraged to participate in the care of their infants. The facility environment for perinatal care shall meet the physiologic and psychosocial needs of the mothers, infants, and families.
(b) Program Plan. The facility shall develop a written plan of the neonatal program that includes a detailed description of the scope of services available to all maternal and neonatal patients, defines the neonatal patient population evaluated and/or treated, transferred, or transported by the facility, that is consistent with accepted professional standards of practice for neonatal and maternal care, and ensures the health and safety of patients.
• (1) The written plan and the program policies and procedures shall be reviewed and approved by the facility's governing body. The governing body shall ensure that the requirements of this section are implemented and enforced.

• (2) The written neonatal program plan shall include, at a minimum:

  • (A) standards of neonatal practice that the program policies and procedures are based upon that are adopted, implemented and enforced for the neonatal services it provides;

  • (B) a periodic review and revision schedule for all neonatal care policies and procedures;
TAC § 133.185 Program Requirements

• (C) written triage, stabilization and transfer guidelines for neonates and/or pregnant/postpartum women that include consultation and transport services;

• (D) ensure appropriate follow up for all neonates/infants;

• (E) provisions for disaster response to include evacuation of mothers and infants to appropriate levels of care;
TAC § 133.185 Program Requirements

- (F) a QAPI Program as described in §133.41(r) of this title (relating to Hospital Functions and Services). The facility shall demonstrate that the neonatal program evaluates the provision of neonatal care on an ongoing basis, identify opportunities for improvement, develop and implement improvement plans, and evaluate the implementation until a resolution is achieved. The neonatal program shall measure, analyze, and track quality indicators or other aspects of performance that the facility adopts or develops that reflect processes of care and is outcome based. Evidence shall support that aggregate patient data is continuously reviewed for trends and data is submitted to the department as requested;
• (G) requirements for minimal credentials for all staff participating in the care of neonatal patients;

• (H) provisions for providing continuing staff education; including annual competency and skills assessment that is appropriate for the patient population served;

• (I) a perinatal staff registered nurse as a representative on the nurse staffing committee under §133.41(o)(2)(F) of this title;
• (J) the availability of all necessary equipment and services to provide the appropriate level of care and support of the patient population served; and

• (K) the availability of personnel with knowledge and skills in breastfeeding.
• (c) Medical Staff. The facility shall have an organized, effective neonatal program that is recognized by the medical staff and approved by the facility's governing body. The credentialing of the medical staff shall include a process for the delineation of privileges for neonatal care.
(d) Medical Director. There shall be an identified Neonatal Medical Director (NMD) and/or Transport Medical Director (TMD) as appropriate, responsible for the provision of neonatal care services and credentialed by the facility for the treatment of neonatal patients.
TAC § 133.185 Program Requirements

• (1) The NMD and/or TMD shall have the authority and responsibility to monitor neonatal patient care from admission, stabilization, operative intervention(s) if applicable, through discharge, inclusive of the QAPI Program.

• (2) The responsibilities and authority of the NMD and/or TMD shall include but are not limited to:
• (A) examining qualifications of medical staff requesting neonatal privileges and makes recommendations to the appropriate committee for such privileges;

• (B) assuring staff competency in resuscitation techniques;

• (C) participating in ongoing staff education and training in the care of the neonatal patient;
(D) oversight of the inter-facility neonatal transport;

(E) participating in the development, review and assurance of the implementation of the policies, procedures and guidelines of neonatal care in the facility including written criteria for transfer, consultation or higher level of care;

(F) regular and active participation in neonatal care at the facility where medical director services are provided;
• (G) ensuring that the QAPI Program is specific to neonatal/infant care, is ongoing, data driven and outcome based; and regularly participates in the neonatal QAPI meeting; and

• (H) maintaining active staff privileges as defined in the facility's medical staff bylaws.
• (e) Neonatal Program Manager (NPM). The NPM responsible for the provision of neonatal care services shall be identified by the facility and:

• (1) be a registered nurse:

• (2) have successfully completed and is current in the Neonatal Resuscitation Program (NRP) or an office-approved equivalent:
(3) have the authority and responsibility to monitor the provision of neonatal patient care services from admission, stabilization, operative intervention(s) if applicable, through discharge, inclusive of the QAPI Program as defined in subsection (b)(2)(E) of this section.

(4) collaborate with the NMD in areas to include, but not limited to: developing and/or revising policies, procedures and guidelines; assuring staff competency, education, and training; the QAPI Program; and regularly participates in the neonatal QAPI meeting; and

(5) develop collaborative relationships with other NPM(s) of designated facilities within the applicable Perinatal Care Region.
TAC §133.187 Level III
TAC §133.188 Level IV

- **III - NICU.**
  - (1) provide care for mothers and comprehensive care of their infants of all gestational ages with mild to critical illnesses or requiring sustained life support;

- **IV - Advanced NICU**
  - (1) provide care for the mothers and comprehensive care of their infants of all gestational ages with the most complex and critically ill neonates/infants with any medical problems, and/or requiring sustained life support;
• III - NICU.
  • (2) provide for consultation to a full range of pediatric medical subspecialists and pediatric surgical specialists, and the capability to perform major pediatric surgery on-site or at another appropriate designated facility;

• IV - Advanced NICU
  • (2) ensure that a comprehensive range of pediatric medical subspecialists and pediatric surgical subspecialists are available to arrive on-site for face to face consultation and care, and the capability to perform major pediatric surgery including the surgical repair of complex conditions:
• III - NICU
  • (3) have skilled medical staff and personnel with documented training, competencies and continuing education specific for the patient population served;
  • (4) facilitate transports; and
  • (5) provide outreach education to lower level designated facilities.

• IV - Advanced NICU
  • (3) have skilled personnel with documented training, competencies and continuing education specific for the patient population served;
  • (4) facilitate transports; and
  • (5) provide outreach education to lower level designated facilities.
III - NICU

(b) Neonatal Medical Director (NMD). The NMD shall be a physician who is a board eligible/certified neonatologist and demonstrates a current status on successful completion of the Neonatal Resuscitation Program (NRP).

IV - Advanced NICU

(b) Neonatal Medical Director (NMD). The NMD shall be a physician who is a board eligible/certified neonatologist and demonstrates a current status on successful completion of the Neonatal Resuscitation Program (NRP).
• III - NICU

• (c) If the facility has its own transport program, there shall be an identified Transport Medical Director (TMD). The TMD or Co-Director shall be a physician who is a board eligible/certified neonatologist or pediatrician with expertise and experience in neonatal/infant transport.

• IV - Advanced NICU

• (c) If the facility has its own transport program, there shall be an identified Transport Medical Director (TMD). The TMD and/or Co-Director shall be a physician who is a board eligible/certified neonatologist.
• III - NICU
• (d) Program Functions and Services.
  • (1) Triage and assessment of all patients admitted to the perinatal service with identification of pregnant patients who are at high risk of delivering a neonate that requires a higher level of care who will be transferred to a higher level facility prior to delivery unless the transfer is unsafe.

• IV - Advanced NICU
• (d) Program Functions and Services.
  • (1) Triage and assessment of all patients admitted to the perinatal service with identification of pregnant patients who are at high risk of delivering a neonate that requires a higher level of care who will be transferred to another facility prior to delivery unless the transfer is unsafe.
TAC §133.187 Level III

TAC §133.188 Level IV

• III – NICU
  • (2) Supportive and emergency care shall be delivered by appropriately trained personnel, for unanticipated maternal-fetal problems that occur during labor and delivery through the disposition of the patient.

• IV - Advanced NICU
  • (2) Supportive and emergency care shall be delivered by appropriately trained personnel, for unanticipated maternal-fetal problems that occur during labor and delivery, through the disposition of the patient.
TAC §133.187 Level III
TAC §133.188 Level IV

• III – NICU
  • (3) The ability to perform an emergency cesarean delivery within 30 minutes.

• IV - Advanced NICU
  • (3) The ability to perform an emergency cesarean delivery within 30 minutes.
• III – NICU
  • (4) At least one of the following neonatal providers shall be on-site and available at all times and includes pediatric hospitalists, neonatologists, and/or neonatal nurse practitioners or neonatal physician assistants, as appropriate, who have demonstrated competence in management of severely ill neonates/infants, whose credentials have been reviewed by the NMD and is on call, and:

• IV - Advanced NICU
  • (4) Board certified/board eligible neonatologists whose credentials have been reviewed by the NMD and is on call, and who:
• III – NICU
  • (C) if the on-site provider is not a neonatologist, a neonatologist shall be available for consultation at all times and shall arrive on-site within 30 minutes of an urgent request;

• IV – Advanced NICU
  • (C) shall be on-site and immediately available at the neonate/infant bedside as requested.
• III – NICU

  • (D) if the neonatologist is covering more than one facility, the facility must ensure that a back-up neonatologist be available, documented in an on call schedule and readily available to facility staff; and

  • (E) ensure that the neonatologist providing back-up coverage shall arrive on-site within 30 minutes.

• IV – Advanced NICU
• III – NICU
  • (5) Anesthesiologists with pediatric expertise, shall directly provide the anesthesia care to the neonate, in compliance with the requirements found in §133.41(a) of this title (relating to Hospital Functions and Services).

• IV – Advanced NICU
  • (5) Pediatric anesthesiologists shall directly provide anesthesia care to the neonate, in compliance with the requirements in §133.41(a) of this title.
(a) Anesthesia services. If the hospital furnishes anesthesia services, these services shall be provided in a well-organized manner under the direction of a qualified physician in accordance with the Medical Practice Act and the Nursing Practice Act. The hospital is responsible for and shall document all anesthesia services administered in the hospital.

(1) Organization and staffing. The organization of anesthesia services shall be appropriate to the scope of the services offered. Only personnel who have been approved by the facility to provide anesthesia services shall administer anesthesia. All approvals or delegations of anesthesia services as authorized by law shall be documented and include the training, experience, and qualifications of the person who provided the service.

(2) Delivery of services. Anesthesia services shall be consistent with needs and resources. Policies on anesthesia procedure shall include the delineation of pre-anesthesia and post-anesthesia responsibilities. The policies shall ensure that the following are provided for each patient.

(A) A pre-anesthesia evaluation by an individual qualified to administer anesthesia under paragraph (1) of this subsection shall be performed within 48 hours prior to surgery.

(B) An intraoperative anesthesia record shall be provided. The record shall include any complications or problems occurring during the anesthesia including time, description of symptoms, review of affected systems, and treatments rendered. The record shall correlate with the controlled substance administration record.

(C) A post-anesthesia follow-up report shall be written by the person administering the anesthesia before transferring the patient from the post-anesthesia care unit and shall include evaluation for recovery from anesthesia, level of activity, respiration, blood pressure, level of consciousness, and patient's oxygen saturation level.

(i) With respect to inpatients, a post-anesthesia evaluation for proper anesthesia recovery shall be performed after transfer from the post-anesthesia care unit and within 48 hours after surgery by the person administering the anesthesia, registered nurse (RN), or physician in accordance with policies and procedures approved by the medical staff and using criteria written in the medical staff bylaws for postoperative monitoring of anesthesia.

(ii) With respect to outpatients, immediately prior to discharge, a post-anesthesia evaluation for proper anesthesia recovery shall be performed by the person administering the anesthesia, RN, or physician in accordance with policies and procedures approved by the medical staff and using criteria written in the medical staff bylaws for postoperative monitoring of anesthesia.
• III – NICU
  • (6) A dietitian or nutritionist who has special training in perinatal and neonatal nutrition and can plan diets that meet the special needs of neonates/infants is available at all times, in compliance with the requirements found in §133.41(d) of this title.

• IV – Advanced NICU
  • (6) A dietitian or nutritionist who has special training in perinatal and neonatal nutrition and can plan diets that meet the special needs of neonates in compliance with the requirements in §133.41(d) of this title.
TAC §133.187 Level III
TAC §133.188 Level IV

- III – NICU

- IV – Advanced NICU
  
  (7) A comprehensive range of pediatric medical subspecialists and pediatric surgical subspecialists will be immediately available to arrive on-site for face to face consultation and care for an urgent request.
III – NICU

(7) Laboratory services shall be in compliance with the requirements found at §133.41(h) of this title and shall have:

(A) laboratory personnel on-site at all times;
(B) perinatal pathology services available;
(C) a blood bank capable of providing blood and blood component therapy; and
(D) neonatal blood gas monitoring capabilities.

IV – Advanced NICU

(8) Laboratory services shall be in compliance with the requirements in §133.41(h) of this title and shall have:

(A) appropriately trained and qualified laboratory personnel on-site at all times;
(B) perinatal pathology services;
(C) a blood bank capable of providing blood and blood component therapy; and
(D) neonatal/infant blood gas monitoring capabilities.
• **III – NICU**
  
  • (8) Pharmacy services shall be in compliance with the requirements found in §133.41(q) of this title and will have a pharmacist, with experience in neonatal/pediatric and perinatal pharmacology, available at all times.

• **IV – Advanced NICU**

  • (9) Pharmacy services shall be in compliance with the requirements in §133.41(q) of this title and shall have a pharmacist, with experience in neonatal/pediatric and perinatal pharmacology available **on-site** at all times.
TAC §133.187 Level III
TAC §133.188 Level IV

• III – NICU
  • (A) If medication compounding is done by a pharmacy technician for neonates/infants, a pharmacist will provide immediate supervision of the compounding process;

• IV – Advanced NICU
  • (A) If medication compounding is done by a pharmacy technician for neonates/infants, a pharmacist will provide immediate supervision of the compounding process.
TAC §133.187 Level III
TAC §133.188 Level IV

• III – NICU
  • (B) If medication compounding is done for neonates/infants, the pharmacist will develop checks and balances to ensure the accuracy of the final product.
  • (C) Total parenteral nutrition appropriate for neonates/infants shall be available.

• IV – Advanced NICU
  • (B) If medication compounding is done for neonates/infants, the pharmacist shall develop and implement checks and balances to ensure the accuracy of the final product.
  • (C) Total parenteral nutrition appropriate for neonates/infants shall be available.
TAC §133.187 Level III
TAC §133.188 Level IV

• III – NICU
  • (9) An occupational or physical therapist with sufficient neonatal expertise shall be available to meet the needs of the population served.

• IV – Advanced NICU
  • (10) An occupational or physical therapist with neonatal expertise shall be available to meet the needs of the population served.
• **III – NICU**
  • (10) Medical Imaging. Radiology services shall be in compliance with the requirements found in §133.41(s) of this title; will incorporate the "As Low as Reasonably Achievable" principle when obtaining imaging in neonatal and maternal patients; and shall have:

• **IV – Advanced NICU**
  • (11) Medical Imaging. Radiology services shall be in compliance with the requirements in §133.41(s) of this title will incorporate the "As Low as Reasonably Achievable" principle when obtaining imaging in neonatal and maternal patients; and shall have:
• III – NICU
  • (A) personnel appropriately trained in the use of x-ray equipment shall be on-site and available at all times; personnel appropriately trained in ultrasound, computed tomography, magnetic resonance imaging, echocardiography, and/or cranial ultrasound equipment shall be on-site within one hour of an urgent request; fluoroscopy shall be available;

• IV – Advanced NICU
  • (A) personnel appropriately trained in the use of x-ray equipment shall be on-site and available at all times; personnel appropriately trained in ultrasound, computed tomography, magnetic resonance imaging, echocardiography and/or cranial ultrasound equipment shall be on-site within one hour of an urgent request; and fluoroscopy shall be available at all times;
III – NICU

- (B) interpretation of neonatal and perinatal diagnostic imaging studies by radiologists with pediatric expertise at all times; and
- (C) pediatric echocardiography with pediatric cardiology interpretation and consultation within one hour of an urgent request.

IV – Advanced NICU

- (B) neonatal and perinatal diagnostic imaging studies available at all times with interpretation by radiologists with pediatric expertise, available within one hour of an urgent request; and
- (C) pediatric echocardiography with pediatric cardiology interpretation and consultation within one hour of an urgent request.
TAC §133.187 Level III
TAC §133.188 Level IV

• III – NICU
  • (11) Speech language pathologist, an occupational therapist, or a physical therapist with neonatal/infant experience shall be available to evaluate and manage feeding and/or swallowing disorders.

• IV – Advanced NICU
  • (12) Speech language pathologist with neonatal expertise shall be available to evaluate and manage feeding and/or swallowing disorders.
III – NICU
(12) A respiratory therapist, with experience and specialized training in the respiratory support of neonates/infants, whose credentials have been reviewed by the NMD, shall be immediately available on-site.

IV – Advanced NICU
(13) A respiratory therapist, with experience and specialized training in the respiratory support of neonates/infants, whose credentials have been reviewed by the Neonatal Medical Director, shall be on-site and immediately available.
• III – NICU
  • (13) Resuscitation. Written policies and procedures shall be specific to the facility for the stabilization and resuscitation of neonates based on current standards of professional practice.

• IV – Advanced NICU
  • (14) Resuscitation. The facility shall have written policies and procedures specific to the facility for the stabilization and resuscitation of neonates/infants based on current standards of professional practice.
• III – NICU
  • (A) Each birth shall be attended by at least one provider who demonstrates current status of successful completion of the NRP whose primary responsibility is the management of the neonate and initiating resuscitation.

• IV – Advanced NICU
  • (A) Each birth shall be attended by at least one provider who demonstrates current status of successful completion of the NRP whose primary responsibility is the management of the neonate and initiating resuscitation.
• **III – NICU**
  
  (B) At least one person must be immediately available on-site with the skills to perform a complete neonatal resuscitation including endotracheal intubation, establishment of vascular access and administration of medications.

• **IV – Advanced NICU**
  
  (B) At least one person must be immediately available on-site with the skills to perform a complete neonatal resuscitation including endotracheal intubation, establishment of vascular access and administration of medications.
TAC §133.187 Level III

TAC §133.188 Level IV

• III – NICU
  • (C) Additional providers who demonstrate current status of successful completion of the NRP shall attend each neonate in the event of multiple births.

• IV – Advanced NICU
  • (C) Additional providers who demonstrate current status of successful completion of the NRP shall attend each neonate in the event of multiple births.
• **III – NICU**
  - (D) Each high-risk delivery shall have in attendance at least two providers who demonstrate current status of successful completion of the NRP whose only responsibility is the management of the neonate.

• **IV – Advanced NICU**
  - (D) Each high-risk delivery shall have in attendance at least two providers who demonstrate current status of successful completion of the NRP whose only responsibility is the management of the neonate.
• III – NICU
  • (E) A full range of resuscitative equipment, supplies, and medications shall be immediately available for trained staff to perform complete resuscitation and stabilization on each neonate/infant.

• IV – Advanced NICU
  • (E) A full range of resuscitative equipment, supplies and medications shall be immediately available for trained staff to perform resuscitation and stabilization on each neonate/infant.
TAC §133.187 Level III
TAC §133.188 Level IV

• III – NICU
  • (14) Perinatal Education. A registered nurse with experience in neonatal care, including neonatal intensive care, shall provide supervision and coordination of staff education.

• IV – Advanced NICU
  • (15) Perinatal Education. A registered nurse with experience in neonatal care, including neonatal intensive care, shall provide supervision and coordination of staff education.
• III – NICU
  • (15) Pastoral care and/or counseling shall be provided as appropriate to the patient population served.
  • (16) Social services shall be provided as appropriate to the patient population served.

• IV – Advanced NICU
  • (16) Pastoral care and/or counseling shall be provided as appropriate to the patient population served.
  • (17) Social services shall be provided as appropriate to the patient population served.
• III – NICU
  • (17) Ensure the timely evaluation of retinopathy of prematurity, monitoring, referral for treatment and follow-up, in the case of an at-risk infant.

• IV – Advanced NICU
  • (18) The facility must ensure the timely evaluation and treatment of retinopathy of prematurity on-site by a pediatric ophthalmologist or retinal specialist with expertise in retinopathy of prematurity in the event that an infant at risk is present, and a documented policy for the monitoring, treatment and follow-up of retinopathy of prematurity.
• III – NICU
  • (18) A certified lactation consultant shall be available at all times.
  • (19) Ensure provisions for follow up care at discharge for infants at high risk for neurodevelopmental, medical, or psychosocial complications.

• IV – Advanced NICU
  • (19) A certified lactation consultant shall be available at all times.
  • (20) Ensure provisions for follow up care at discharge for infants at high risk for neurodevelopmental, medical, or psychosocial complications.
Designation Deadline Dates

• Each hospital that provides neonatal care will need to be designated by September 1, 2018 to receive Medicaid funds.

• Applications must be received in our office before July 1, 2018 to be approved for designation by the Executive Commissioner before September 1, 2018.
The DSHS website is now available. Yay!

The website will be updated with this webinar, the rule, educational opportunity dates and a Frequently Asked Questions (FAQ) section.
The purpose of the Neonatal Levels of Care Designation is to comply with House Bill 15, 83rd Legislature, Regular Session, 2013, which added Health and Safety Code, Subchapter H, Hospital Level of Care Designations for Neonatal and Maternal Care, Sections 241.181 - 241.187. House Bill 3433, 84th Legislature, Regular Session, 2015 amended Health and Safety Code, Chapter 241 requires the development of initial rules to create the neonatal / maternal level of care designation by March 1, 2018. Currently only the neonatal level of care designation rule has been developed and is in the rule adoption process, expected to become effective on or about May 20, 2016. The designation for neonatal level of care is an eligibility requirement for Medicaid reimbursement beginning September 1, 2018.

Proposed Neonatal Designation Rule

The official publication was posted on the Texas Register November 20, 2015. Hospital Level of Care Designations for Neonatal and Maternal Care (HTML)
